PIPETTE TIPS AND SPARES POLICY

TIPS POLICY:

In accordance with ISO 8655, We will calibrate pipettes using the relevant manufacturers tips unless stated by the customer. Customers requiring pipettes to be calibrated using a specific non-manufacturer brand of tips, must inform us and supply the tips.

PLEASE NOTE: Calibration or use of pipettes with non-manufacturers tips does not fully comply with manufacturer or ISO 8655 specifications and may affect performance.

SPARES POLICY:

We only use genuine manufacturer spare parts to ensure optimum performance and compliance with ISO 8655 and manufacturer specifications.

I would like to replace any non-genuine parts with genuine manufacturer parts regardless of condition.

I ACCEPT THE ABOVE PIPETTE TIPS AND SPARES POLICY
